Old People Made Strong by Vinol

The decline of old age reverses the order of growth, and waste outstrips addition. The new matter comes, but not so rapidly as the old is cas: away.

The heart becomes feeble and sends the blood lazily along the arteries, producing languid circulation, low temperature generally, with often cold hands and feet. Important structural changes are constantly taking place, and if the vitality gets too low, apoplexy, diseases of the liver, kidneys, or bladder, and organic changes of the heart, dropsy or chronic affections of the breathing organs frey

quently appear.
TREATMENT-To Create Strength and

Preserve Health in Old Age.
With proper attention to diet, prevention of colds, exercise, plenty of sleep, proper care of the skin and the use of a strengthening tonic like Vinol, years may be added to one's life. The reason Vinol the ideal strengthener and body-ider for old folks is because it con-ns the very elements needed to rebuild sting tissues and replace weakness h strength. If people only realized the good Vinol does old people, we would not ble to supply the demand.

PARTIES CLASH OVER HAY BILL

Republican Leaders Denounce Army Measure as Being "Utterly Inadequate."

CLARK LAUDS PROJECT

'President's Bill," Termed So by Spon sor, Indorsed by Speaker in Burst of Oratory.

General debate on the Hay army bill in the House ended yesterday with a wide divergence of views as to its merita. Unlooked-for clashes of opinion among eaders characterized the debate through-ut the day.

Speaker Champ Clark ended the ten

hours of oratory with an unqualified in-forsement of the bill shortly after it had been denounced by Republican Leader Mann as "utterly inadequate."

An amendment by Representative Kahn! fouse adjourned. Earlier in the day, in answer to ques

ons by Representative Moore, of Penn-lvania, Chairman Hay declared that e bill had the full approval of the President, and was practically "the Presdent's bill." Judging by the progress made yester-lay under the five-minute rule, when the

ill was taken up by paragraphs, it will

be at least a week before a vote is taken on the bill, even if an organized fight against it does not develop. Representative Kahn declared in favor of the bill, but later voted for an amendent offered by Representative Gardner, acreasing the privates in the coast ar-llery corps by 5,000 over the number uthorized by the bill. This amendment, fter a hot discussion between Mr. Hay and Mr. Gardner, was defeated. An amendment offered by Representative Fields, of Kentucky, raising the rank and pay of the chief of coast artillery from brigadier general to major general, was agreed to without objection.

Takes Middle Stand.

Speaker Clark said in part:
"There are certain fundamental propoitions on which the vast majority of the merican people are agreed: First, the

vant peace, but not 'peace at any price.'
hey want 'peace with honor.'
"Second: They do not intend to see this
country turned into an armed camp. They are unalterably opposed, always have been and forever will be, until the

"Third: They are not want and naval cupt the country in military and naval preparations. They are, however, willg to spend all that is necessary for the

'Fourth: They are almost to a man gainst conscription in times of peace, out they are for it should it become lecessary in times of war." Representative Mann. of Illinois, Repub-

can leader of the House, declared that he increase authorized by the Hay bill was not even sufficient "when any oc-asion arises for even miniature war." "In the greatest of wars, now going in, neither side will be too careful of the linterests of outsiders," he said. We constitute the greatest neutral powr in the world. We expect to speak fith some authority. It is the duty of the United States to prepare now in army which will add to the weight the greatest and the suggestions. of the reasons and the suggestions which

we may make.

"The President favors this bill. But this is not preparation for trouble; this is only preparation for peace. To me the time has come in the relations of our country to the world when I think it wise for us to consider the possibility, as well as the probability, and to prepare now for what may or might not come to us. With the war spirit running throughout the world, in this, the greatest and richest nation of the world, it were idle to say that we should leave ourselves utterly unprepared for possible war in the subline confidence that God will take care of us as he does of drunken men."

SINGER SAYS EVERYBODY SHOULD RIDE A HOBBY

WILDA BENNETT.

Prima donna of "The Only Girl." "The woman who is not interested in , 'While I will not admit to it as a things in general, or something in particular, is an uninteresting companion," says Wilda Bennett, prima donna singing in "The Only Girl," which comes to the rights. Not that I am so heartly in favor

in "The Only Girl," which comes to the Belasco Theater next week.

"No matter how beautiful she may be her charms will be minimized or of short duration. The victim of ennul or indifference, victimizes everybody about her. Her friends may look upon her and admire her beauty, but she is decidedly uninteresting, even a little bit of her society is generally an overdose.

"To be blase is not to be interesting. If you are weary of everything in life you need the attention of a physician. There is something wrong with you

There is something wrong with you mentally and physically.

"Something new and interesting in the world is cropping out every minute. The most interesting people are those who see things and are able to get all possible pleasure out of them. An exhibition of indifference to things about you is not an evidence of intelligence. Intelligent people are the ones whose eyes are open. That is the way they become intelligent, such people are so interesting that if they happen to lack beauty that fact is forgotten in admiration of their intellect. There is something wrong with you nary female, since only a few extraordi

Report of Diet Kitchen Association Shows Remarkable Work Among Infants.

Pre-natal Conferences Grow in Popularity, Declares Miss Estelle Wheeler, Head of Nurses.

"The last year has been one of con tinuous growth in all directions," Miss Estelle Wheeler, superintendent of nurses, declares in summarizing the awakened interests of the mothers of Washington or Stomach Troubles. in the "better babies" campaign being waged by the Infant Welfare Center of the Washington Diet Kitchen Associa-

association also is shown in the fact that during the past year the number of bables under the care of the nurses doubled the number cared for in 1914. In 1915, 2,127 babies were under direct supervision of the association staff. In 1914, 1,140 were under supervision, while in 1912, the year of the association's inception, 122 babies were cared for.

In the pre-natal conferences, four of which are held at three centers each week, during the rust year there were 13,169 visitors: in 1914, 7,042, and in 1913, 1,122. The nurses visits to homes, which are another indication of awakened in-6,892 in 1914 to 10,880 in 1915.
Miss Mary Gwynn, president of the as-

ciation, emphasizes the increase in insociation, emphasizes the increase in in-terest by saying in the opening paragraph of her annual report, "The year just closing has brought such encouragement in its results that we look forward with increased confidence to the future."

The wonderful work being done by the association in the prevention of infantile mortality is obvious when it is realized that of the total number of babies under care last year, only forty-two died. Thirty-one of these were under 1 year of
